

Exterminate

Escape With Romeo

Nothing's quite what it seems
locked inside my sunken dreams
through the early dawn we glide
on your frozen wings I ride

Angel of mortality
you look so good to me
unimpressed by love and hate
you have come to exterminate

Zwischenteil

Vulcanoes will erupt with you
Destruction is what they call you
giant waves and thunderstorms
watching as the world transforms

Angel of mortality
you look so good to me
unimpressed by love and hate
you have come to exterminate

Zwischenteil

Angel of mortality
you look so good to me
unimpressed by love and hate
you have come to exterminate
