

# I Don't Love You Anymore

Escape With Romeo

here's a song  
that I dedicate to you  
although I know  
you're not listening now

Your beautiful face  
caused so much misery  
all I see in your eyes now  
is worldwar 3

I don't love you anymore

apart from the anger  
aside from the cages  
I look for emotion  
that is lost for ages

now I'm a robot  
but I still can feel and  
I wait for the moment  
my wounds will heal

I don't love you anymore
