

Abuse of Power

Esham

The system is corrupt and morally bankrupt
Might be the main reason I don't give a fuck
Six feet deep trying to put me in the rut
But I'm crawling out this grave, it's time for me to get on up
Toe tag, body bag, forty-four mag
Fuck the police, be the last one to blast
Niggas is mad from all the shit in the past
Black lives don't matter, so don't fuckin' ask
Even if you got cash, sick of getting harassed
America's a mirror, a [?] reflector, take off her mask
They don't want a solution, this that true revolution
This that new evolution, this that noise pollution
Why you wanna become a cop if you's a coward?
Shoot another unarmed black, abuse of power
Yeah it's raining bullets and blood baths and showers
We ain't trying to take your life, you taking ours
[?] like the Twin Towers
Next week in the casket with the flowers
Abuse of powers, abuse of authorities
Abuse of rape and murder killing all minorities
Verbal abuse, for murder I have no excuse
No justice, no peace, it's just us in these streets

I like little monsters, just like

I like little monsters just like you
In my eyes, girl, your dream come true
I know I see the truth 'cause you show it in the lies
Somebody makes you cry (They die)
I like little monsters just like you
In my eyes, girl, your dream come true
I know I see the truth 'cause you show it in the lies
Somebody makes you cry (They die)

I like little monsters just like you, girl
Welcome to the new world
Gotta stay true, girl
It's me and you, girl
Ooh, girl
Let me know what what excites you
Would you like if I bite you?

It's okay
Killed your last boyfriend 'cause he was gay
I know that you're crazy
I know that you're crazy
Girl, I like that, we gon' have a party
We gon' dismember a body tonight

I like little monsters, just like
I like little monsters just like you
In my eyes, girl, your dream come true
I know I see the truth 'cause you show it in the lies
Somebody makes you cry (They die)
I like little monsters just like you
In my eyes, girl, your dream come true
I know I see the truth 'cause you show it in the lies

Somebody makes you cry (They die)

Save the people

Save the people

Save the people

Save our souls

There's only one way to do that
