

American Made

Esham

I'm American Made
Rollin' on blades
Radio never played
But I still gets paid
I still gets paid
I still gets

I'm American Made
Rollin' on blades
Radio never played
But I still gets paid
I still gets paid
I still gets

I'm American Made
Like U.S. Steel
This hamburger hill
I was made to kill
This verbal combat
Ignite on contact
Once my hand hit mic
And the rhyme hit the track
Relax
There's a bomb in my backpack
I'm just here to blow up you and the wack pack
Fake groupie
With the fake silicon boobie
To cope those fake boobies
Is my American duty
I'm American Made
Like The Saint Valentine's Day Massacre masquerade
So American Made
Like killers, stealin' and drug dealin'
Violate your civil rights
And fuck your feelings
I'm American
Like Lee Harvey Oswald
The First Amendment say
I can say fuck all ya'll
The king killa
The green gorilla
I'm John Wilkes Booth
In the booth to all you presidential niggas
Lincoln
Leave your dead body stinkin'
I don't even know what the fuck you thinkin'
It's all bad in the 50 states
Get me straight
Or I'm have to pull the psycho like Norman Bates
I'm American Made not American Idol
I made Simon Cowell leave on my arrival
Man I'm flyer than the feather on the stack of bibles
Made Eminem suicidal because I'm his greatest rival
Because I know the real truth
You Not Afraid but you should be how you played Proof
No disrespect to his memory
So you should run and show love to all these MCs

Something I can't say you do
I know what I owe you boy
And I'm gonna pay you too
Get it
I'm gonna pay you too
I'm gonna pay you too

I'm American Made
Rollin' on blades
Radio never played
But I still gets paid
I still gets paid
I still gets

I'm American Made
Rollin' on blades
Radio never played
But I still gets paid
I still gets paid
I still gets
