

## Bird After Bird

Esham

Money, got to get it, always necessary  
If I don't get it from rapping, it'll be from trafficking

Bird after bird...

Thank God for amphetamines, but what I really mean is what has dope done for me?

Oh, it got the mansion and the six double zero  
[?] on the table getting rocked up  
The other eight, I keep 'em softened in the freezer locked up  
Money and the power, money and the power  
At the yag spot moving half a brick an hour  
All dime rocks in Detroit grind blocks  
Look out for the cops and the neighborhood watch  
Rolex, diamond infested on some neck shit  
Arm & Hammer, baking soda Pyrex shit  
Cocaine business controls America  
They moving chickens in everybody area  
And Colonel Sanders been dead for years  
Crows been flocking on the wire since I was a little kid  
Young boys come home old men from doing bids  
Reflecting on the pain 36 rolls did  
Even a possibility of life without parole  
Won't stop the murder toll or the birds you sold

Cause it's...

Bird after bird...

Birds flock in spirituals and pray for me miracles  
If anything I never thought I'd turn into a criminal  
So here I go once again, smelling dope and sin  
Ballers commit suicide as soon as they begin  
Misled, another dealer dead  
Shot in his head, took his bread, his blood was red  
Looked like spaghetti and meatballs, brains on the walls  
Money is the root to all evil pain that it cause  
American Eagles on the look out for boys and illegals  
Especially Africans, 'cause they be known for drug traffickin'  
Pushing weight on every available interstate  
Scarface sniffing right off the dinner plate  
Arabian flake with more crystals and Folgers  
Jumping out of planes with no parachutes, I told ya  
You heard me? Watch the birdie  
Scant-less in Detroit, they'll do you dirty  
For surely, you want to get the cheese, be there early  
Slanging O boy or the girlie

Bird after bird...

I know you heard...  
Word after word...  
So now it's bird after bird...  
Word after word...  
I know you heard...

Look girl I'm not gonna sing 'cause I just don't do that

"If you sing that song for me, I'll give you some punani"  
Okay, maybe this one time, come on
