

BULLDOZER

Esham

ShaggyTheAirhead on the beat

Y'all just some little hoes, keep your mouth closed
If you don't, I suppose you gettin' bulldozed
No dap or a handshake, because your man's fake
Steamroll your ass, now you flatter than a pancake
Bitch, hit the switch, sixteen pumps jumpin'
Dead body in the trunk with the funk bumpin'
Laid out, murderin' bitches and never play out
Your body was in the hood, but your head was found way out
Bulldozer run you over in a Ferrari Testarossa
He was actin' like Scarface and didn't know I was Sosa
With the toaster I will roast ya, I hit 'em 'cause I'm supposed to
It's the 3 Headed Monster, el sicario smokin' mota
No fear, Esham shot John Deere
Bulldozed his ass, all that's left was a smear
He was movin' too slow, should've got his ass in gear
When the 3 Headed Monster's comin' get the fuck up out of here

Nothing can stop this bulldozer
On a rampage, when we on a rampage
You about to get that bulldozin'
Everyone's in danger, everyone's in danger, everyone's in danger
Nothing can stop this bulldozer
On a rampage, when we on a rampage
You about to get that bulldozin'
Everyone's in danger, everyone's in danger, everyone's in danger

Little fully mane ride like a dually mane (ooh)
Strapped up, uh yuh, Tim the toolie mane (yuh)
Bulldoze on them hoes when I'm swervin' lanes
Everything straight now, huh, fuck a turnin' lane
Hatchet hangin' out the window, run you over with the rental
Got insurance incidental, ain't that just coincidental?
Bad little bitch on my sack, she in Sacramento
Ho, it's nothin' to a monster, don't be in here actin' special

Nothing can stop this bulldozer
On a rampage, when we on a rampage
You about to get that bulldozin'
Everyone's in danger, everyone's in danger, everyone's in danger
Nothing can stop this bulldozer
On a rampage, when we on a rampage
You about to get that bulldozin'
Everyone's in danger, everyone's in danger, everyone's in danger

Buildings swept off the streets when we bulldoze
Nostrils blowin' smoke like a bull's nose
Undercover doors close in your work clothes
Shook froze as we rattle your floors
The big monster stays in an all-out rampage
3HM on every front page, all the rage
Everyone's excited to die, crowding the streets to be crushed
And I get it, 'cause it's a rush
A monolithic Goliath gargantuan with giantism
Steppin' out the motherfuckin' flyin' prism
Missile missin', flyin' by us hissin'

Fire ignited by the flames I'm pissin'
In our path is obliterated rubble when we bulldoze
All metropolises grumble when we bulldoze
Half the fuckin' planet rumble when we bulldoze
The monster do what the fuck it wants to, hoes

Nothing can stop this bulldozer
On a rampage, when we on a rampage
You about to get that bulldozin'
Everyone's in danger, everyone's in danger, everyone's in danger
Nothing can stop this bulldozer
On a rampage, when we on a rampage
You about to get that bulldozin'
Everyone's in danger, everyone's in danger, everyone's in danger
