

Countdown To Zero

Esham

This world is explosive

It's a dead body outside, nobody picked it up
Cemetery full of dead bodies, I'm 'bout to dig 'em up
Yeah you brought a gun to the party but it's not big enough
Hit you with the sniper rifle, your whole wig'll bust
The whole world hate the Black man, wanna get rid of us
But can't get enough of the style, they acting niggerish
Can't catch me like a shark outta water 'cause I'm the bigger fish
The benefit is I been official when yeah you been a bitch
They told you I sold dope all my life so now you finna snitch
Fuck who you voting for president, I don't give a shit
Slugs if you looking for love's how I'm giving it
The wicked shit is just real life and I'm living it

T-minus three to self-destruct (now hear this)
The government is so corrupt (now hear this)
I came to fuck the party up (now hear this)
T-minus two to self-destruct (now hear this)
T-minus two to self-destruct (now hear this)
The government is so corrupt (now hear this)
I came to fuck the party up (now hear this)

World war be jumping off, we on a sinking ship
USA border overflowed with illegal immigrants
Is working for the mob considered a black job?
Times so hard, these niggas they go rob
You can run for president, still have a felony
This is not a joke and my name ain't Bill Bellamy
Inflation, segregation, whole damn nation hating
Suicide contemplating, government is ran by Satan
Chance of living's going down, the cost of living's going up
Whole world blowing up and nobody gives a fuck
I push it to the limit 'cause I gotta win it
I'm still in it, authentic, it's not a gimmick
Michael Jackson said it doesn't matter if you black or white
But having black skin in America you still have to fight
Police officers violating your civil rights
Life after death, I welcome you to the afterlife

T-minus three to self-destruct (now hear this)
The government is so corrupt (now hear this)
I came to fuck the party up (now hear this)
T-minus two to self-destruct (now hear this)

Can't afford diapers or buy your baby Similac
Crackheads voting, you must be smoking demo-cracks
I'll never get love again from a Republican
They treat me like the enemy when I'm in the public then
Angry protesters pushing and shoving them
Bullets need a outlet and I'm finna plug 'em in
Tryna catch a halo but you not in the Covenant

When it comes to the government you know I'm not loving it
Don't aks me who the fuck I'm voting for
I'm voting for my gun rights and toting a .44
I'm here to welcome all y'all to the murder show
Say go, I'ma let the bodies hit the floor
Ay yo, four more years, I'm like hell no
A blind man can see that shit, this ain't braille though
Suffer from dementia knowing you ain't well though
I would say God bless America but we in hell though
