

# Fallen Down

Esham

Hunt one, hunt two, hike

Last thing I remember's layin' on my back  
People lookin' at me from the stands, like you see that  
They laid that quarterback out with the blitz  
Put him on his ass, I don't think he gon' make it  
Doctors lookin' at me like they want me on a stretcher  
In this dirty game, the cops won't even know who wet ya  
Ya say ya got a thousand grams of pure, you tryna measure  
Life on a triple beam, chasin' street dream treasures

I've fallen down  
I've fallen down  
I've fallen down  
But these voices in my head keep tellin' me I gotta get up

Never let 'em see you sweat, this day they won't forget  
I'm sick as fuck, I'm quick to buck, I'm on they set wit' my TEC  
Never said life was fair, I guess that's just how life goes  
I'm the only sane one in a room full of psychos  
I'm sick as Vick, I dogfight pits to the death  
Kill off these rappers 'til there's no rappers left  
You suicidal, then you killin' yourself  
I'm the only one that heard you screamin' for help (help me)

I've fallen down  
I've fallen down  
I've fallen down  
But these voices in my head keep tellin' me I gotta get up

Even though life fucked up, ya gotta pay back up  
If you fall back down, just get back up  
Just get back up, get back up  
Tryna get my hustle 'til a billion bucks  
They don't want me to ball, they want me to fall  
So I run the shotgun play on 'em all  
Down and out, last resort, will I won't show up to court  
Coke in nose, it's called the snort  
They lockin' people up for child support  
But I refuse to lose, I been accused and abused  
Stuck in this game, done paid my dues  
There's no mystery how the game's confused  
This the only way that I can make the news  
Forgive me, I got nuttin' to lose  
Am I goin' to Hell or Heaven, you choose

I've fallen down  
I've fallen down  
I've fallen down  
But these voices in my head keep tellin' me I gotta get up  
I've fallen down  
I've fallen down  
I've fallen down  
But these voices in my head keep tellin' me I gotta get up
