

Let's fall in love again, ooh
Let's fall in love again, ooh
Let's fall in love again, ooh

Ooh, let's fall in love again
Ooh, let me just put it in you
Let's fall in love again, ooh
You make me feel so brand new

Every day sun shining, and the skies are blue
The only thing that's on my mind is you
Everything I'm telling you is true
You make me feel so brand new
Rolling down the highway in a convertible coupe
I met her at the club collecting loot
She could've blocked my shot, but let me shoot
Now dinner reservations for two

Ooh, let's fall in love again
Ooh, let me just put it in you
Let's fall in love again, ooh
You make me feel so brand new

Kissing and hugging on you
Baby, my bae, and my boo
Under the covers with you
You make me feel so brand new

Let's fall in love again, ooh
Let's fall in love again, ooh
Let's fall in love again, ooh
