

# Frankenstein

Esham

There's the mad professor  
And he's conducting more electrical experiments

Frankenstein, that is my name  
If you smoke me, you'll feel no pain  
I am green like Incredible Hulk  
If you black out, it's not my fault  
Frankenstein, that is my name  
If you smoke me, you'll feel no pain  
I am green like Incredible Hulk  
If you black out, it's not my fault

Frankenstein all in my lungs  
Took one puff turn green my tongue  
I don't sing the sing I song  
Flex the golden pipes from here to kingdom come  
Frankenstein, bolts in my neck  
Professor Esham gets no respect  
Maybe 'cause I'm just a experimental subject  
They say he's a danger to the public  
Frankenstein, high THC  
[?] always hating me  
Maybe 'cause of what they wish to be  
Dope fiend like Frank [?]  
Frankenstein, brand new material  
Wake up in the morning 'til you Frankenberry cereal  
Serial killer without the milk  
Frankenstein, kill with no guilt  
Frankenstein, hundred thousand watts  
Beatin' out the trunk comin' down the block  
I'm trying to wake the dead, I shake they grave plots  
All in the casket where the dead body rots

Frankenstein, that is my name  
If you smoke me, you'll feel no pain  
I am green like Incredible Hulk  
If you black out, it's not my fault  
Frankenstein, that is my name  
If you smoke me, you'll feel no pain  
I am green like Incredible Hulk  
If you black out, it's not my fault

It's alive! It's alive! It's alive! It's alive! It's alive! It's alive!  
In the name of God, now I know what it feels like to be God!
