

Go 2 Sleep

Esham

I take sleepin' pills, drink a half a pint, just so I can go to
sleep at night
I got acid flowin' through my veins, fuckin' up my brain, so I
can go to sleep at night
I take sleepin' pills, drink a half a pint, just so I can go to
sleep at night
I put heroin all in my veins, fuckin' up my brain, so I can go
to sleep at night

Bowl full of pills, ate 'em like some cereal
Don't know how many I ate, I passed out on the kitchen floor
Ambulance at my house rushed me to emergency
Doctor yellin' out he need some open-heart surgery
Now I'm in purgatory trapped in this livin' hell
City I live in ain't no different than a jail cell
Everywhere I look I see these people with these evil faces
Starin' at me constantly, my nightmare's reality

I take sleepin' pills, drink a half a pint, just so I can go to
sleep at night
I got acid flowin' through my veins, fuckin' up my brain, so I
can go to sleep at night
I take sleepin' pills, drink a half a pint, just so I can go to
sleep at night
I put heroin all in my veins, fuckin' up my brain, so I can go
to sleep at night

Strapped down on the gurney now, this concern me
Didn't even let me make a call to my attorney
I blacked out, woke up inside a pine box
With the butterfly effect but couldn't cocoon out
I'm fallin' down an endless pit just like David Berkowitz
Dreamed I had to merk a bitch but didn't wanna hurt the bitch
I'm schizophrenic, psycho, sick, the [?] apprentice
Me and my niggas is facin' some life sentences
What's your analysis on my sudden paralysis?
