I sit back and laugh at them outhustle over half of them
Roll these streets in a Magnum with the magnum
Who really the shit, you ain't even gotta ask him
Goddammit, I'm mad at them downloadin' me for free
Foul ball, flag 'em all, them fake fans, you can have 'em
I just wanna take 'em to hell, drag 'em through the fire on the bandw
agon

My MasterCard is platinum, built up hella clientele
Luckily, I ain't tellin' my story from a jail cell
I shoulda been snapped, caught a murder rap, wicked shit
How the fuck you never heard of that, huh
Let me show you [?] killa, we can grow to

Through the pain I'm growin' (Growin'), my poker face is all I'm show
in' (Showin')
You know you mastered the game when everything else in slow motion

Full speed ahead, leave 'em all dead
Put the fear in 'em, leave 'em all scared
Uh, let 'em feel my pain
Everybody get wet when it rain
No exceptions, no protection
You know the answer, don't ask no question
Just fall in line
When it comes to this, call me a Mastamind
The plan gettin' ran from the playbook
Wanna know who am I, hit the block, not Facebook
Don't give a fuck who like this
All my followers suicidalists
And this how we get down
I would do the same wicked shit second time around
Ain't nuttin' changin' up
The fire I lit's still flamin' up

Through the pain I'm growin' (Growin'), my poker face is all I'm show
in' (Showin')
You know you mastered the game when everything else in slow motion (N
