Esham

You got me feelin' just like a pimp  
You got me walkin' 'round with a limp  
I got a coat made out of hemp  
You know I never played to simp  
You got me feelin' just like a boss  
In the game, I can take a loss  
I like to top down, hard or soft  
Baby girl just knock it off  
I'm too legit to quit  
Let me know if you can drive a stick  
If you don't, I'll make it fit  
You gotta know how to keep it lit

You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit

I'm out of orbit, intergalactic  
Dippin' in a spaceship, floatin' through your atmosphere  
From here to there, I'm everywhere  
Freeze, breeze like a breath of fresh air  
This nitrous oxide high on pain  
Got a chemical imbalance in my brain  
Esham's dope, ho, it's in my veins  
Only Doctor Kevorkian in my lane  
Ain't no stoppin' it, keep poppin' it  
Twenty-four seven we gon' keep on rockin' it  
Your boyfriend blockin' it, keep watchin' it  
You got the key to the game, I'm unlockin' it

You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit

You gotta know how to bust a move  
You gotta know this ain't your average groove  
You gotta know a last call for alcohol  
You gotta know the club close at two  
You gotta know my outfit the cleanest  
I'm from Mars and she from Venus  
On the dance floor intravenous  
Lookin' for that dope man, have you seen us?  
We gotta funk you right on up  
I got some Hennessy in my cup  
I got a blunt, too, right on, bruh  
So won't you go on and light on up?  
So pass me a big quick, I'm not rick  
I'ma take a pic with Miss super thick  
Bodacious body bad break outs  
Ass so far from the front it stick out  
Got pumps in the bump doin' the Humpty Hump  
With a rump like that, get whatever you want  
Drop it low on the floor, tote your butt up, though  
In Detroit Errol Flynnin' like what up doe  
She got me comin' home after the club

Tellin' all my boys that I'm in love  
You don't know she from the dirty glove  
She got me hooked like she was a drug  
You gotta light that, like that, tell me do it bite back  
Am I gon' beat it up, or you gon' fight back  
You the type make a player wanna wife that  
Roll with the force, this the Empire Strike Back

You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit

You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit  
You gotta know how to keep it lit
