

# Lone Wolf

Esham

There go the cops, there go the cops, there go the cops, the cops  
There go the cops, there go the cops, there go the cops, the cops  
There go the cops, there go the cops, there go the cops, the cops  
There go the cops, there go the cops, there go the cops, the cops  
There go the cops, there go the cops, there go the cops, the cops  
There go the cops, there go the cops, there go the cops, the cops  
There go the cops, there go the cops, there go the cops, the cops  
There go the cops, there go the cops

I'm legit, I'm the shit  
I'm the fool swinging bows in the pit  
I'm a thot, keep me lit  
I'm like Pop Smoke gun on my hip  
I'm driving fast, in the whip  
Don't want the vaccine, the virus, or the chip  
It's mathematics, I always flip  
I saw you hanging with the police so I dip  
If you a rat man, you a snake  
If you a known snitch, shoot you in your face  
You think you told on the gang and got away  
I'm here to say every dog has his day  
Every dog has his day, every dog has his day  
Then they hit you with the A KK KK K  
Bullets spray gun smoke, inhale ya lungs choke  
You ain't 'bout that life you cannot cope, don't touch that dope  
'Cause America is filled with guns, look what they done  
You gave birth to a snitch, but they found him and killed ya son

Stay away from criminals  
They got bullets, they got guns, you'll get filled with holes  
If you start selling dope you can get rich quick  
But if you snitch on the gang they gon' kill you bitch

I'm in a boat, off the coast  
I'm the big bad wolf I ate the goat  
You getting bread, I'm getting loafs  
I keep the oven on me burn you like toast  
I spray the Raid 'cause you a roach  
Tell the cops I'm social distancing, please don't approach  
Been been getting money, but I say I'm broke  
Been had the umm in ya girl throat throat  
Kill the noise then this rat poison  
For all you rats out there, exterminators everywhere  
The exterminators everywhere  
The exterminators everywhere  
Pesticide take a ride, don't let it slide  
It's a small world after all, ain't nowhere to hide  
Drive you to suicide, how you gon' survive?  
It's a price on your head, you wanted dead or alive

Stay away from criminals  
They got bullets, they got guns, you'll get filled with holes  
If you start selling dope you can get rich quick  
But if you snitch on the gang they gon' kill you bitch
