

# Opioids

Esham

Youth is a happy time and a carefree time  
But sometimes, in these troubled days  
The very thoughtlessness of youths has led to a living nightmare  
Addiction to drugs, too often acquired with tragic carelessness  
May take control of a life  
And force actions not dreamed of before  
These addicts, life's only work is to find money for drugs  
In their desperation, no means is too foul  
Their only goal in life  
Is to keep the deadening chemicals forever in their heart's blood  
The cause of this living death is a white powder  
Innocent looking, but deadly  
Once this was a poppy growing in Italy or Turkey  
Or some other hot land  
The dried juice of this plant produces opium, a powerful drug  
Contained in opium is morphine  
Used by doctors to relieve severe pain

I get money, fuck some bitches, I got riches in my britches  
Man, you talkin' about that paper, little homie, that's what this is  
Man, I'm chasing seven digits, why you shorter than a midget  
Yeah, I talk it like I walk it, and I spit it like I live it  
Ever since I was an infant, people told me I was different  
When I came up out the womb, I was flyer than a pigeon  
Didn't nobody wanna listen, they too broke to pay attention  
All of y'all should go to church and ask the Lord for forgiveness  
I'm out cold, yeah I'm frigid, when I spit it is a blizzard  
I'm from Detroit, you should come and pay me a visit  
I'm a whipped cream wizard, pancakes and the sizzurp  
Real suicidalists make it go busy

More and more is needed to produce the same effects  
After continued use  
The body acquires a physical dependance on opiates  
So that withdrawal of the drug causes brief but violent illness  
Until the body can make a readjustment  
A smaller dose taken into the bloodstream  
Inhibits all the functions of the body  
By its action in the brain and the central nervous system  
But the body gradually builds up a tolerance to the drug

First I wake up, then I bake up, get my cake up, ain't no pay cut  
Ask for forgiveness later, these rappers still some traitors  
T-N-T- died in Las Vegas, Mastamind is still a player  
It's NATAS not NAYTAS, these motherfuckers still hate us  
I don't give a fuck, I'm still playing with them choppers  
I got some shit that'll flame broil you like a whopper, pop ya  
Hit ya real quick with the thigh-yow  
I don't want a foo foo boo boo sack  
Police coming with the pow pow  
'Cause no lives matter, you knew that

(Drugs, called opiates)  
Are you thinking of relocating somewhere in the States?  
Make sure you take a look at the three  
Worst places to live in the US  
Before you make any decisions about your next home base

Three, Cleveland, Ohio

Aside from being one of the most corrupt cities in the country

Cleveland also has harsh weather conditions

With an average of sixty inches of snowfall each year

Two, Camden, New Jersey

Camden has been on Forbes list

Of America's most miserable cities for years

Riddled with urban decay and political corruption

Over forty-two percent of its residents

Live below the poverty line

It also has five hundred and sixty percent more crime

Than the national average

One, Detroit, Michigan

The city is suffering from urban decay

With over thirty-two percent of residents

Living below the national poverty line

According to FBI reports

Detroit has the highest rate of violent crime

Of any city over two hundred thousand

Where do you think the worst place to live in the US is?
