

Put Your Mask On

Esham

"I got a bad feeling about this"

You can still twerk your ass, girl, put your mask on
We still split some cash, though, and put your mask on
Back in the day, we rocked the world, we got our blast on
But I'm tryin' to save your life, bitch, so put your mask on

Put your mask on, when you leave up out your home often
You might hear somebody coughin', and you end up in a coffin
Put your mask on takin' out the trash on dead ash
Tryin' to get some fresh air just might be your last
Put your mask on, buddy, with your girl doin' a dougie
If you're walkin' in the park with your kids pushin' a buggy
Put your mask on, I know you can but you can't
Walk inside no buildin', not even a bank
Bitch, mask it or casket, you ain't gotta axe it
Six feet behind the line with your grocery basket
Grandma, no they won't sympathize for her
She need a mask on and some hand sanatizer
No shoes, no shirt, no mask, no service
Where your mask at? You makin' me nervous
Put your mask on, the situation is critical
It's pitiful, you look like you escaped a hospital, though, yo
Put your mask on, but not that green one
That green, seem like that green they give to all the dope fiends
Put your mask on, or better yet, just stop breathin'
The police department, COVID-19 wanna get even

Put your mask on, you gon' die one day, why would I lie
Put your mask on, treat it like you do in a drive-by
Put your mask on if you comin' up into this place
Put your mask on, we don't wanna see your fuckin' face
Put your mask on, bitch, put your mask on the bitch
Put your mask on, bitch, put your mask on the bitch

I can still fuck your ass, girl, put your mask on
We can still split some cash, though, and put your mask on
Back in the day, we rocked the world, we got our blast on
But I'm tryin' to save your life, bitch, so put your mask on

Put your mask on, cover up your nose, bring some pantyhose
I don't know how long this shit gon' last, this just how it goes
Put your mask on in any stores, or you might come to blows
You was just tryin' to pick up a six pack of liquor low
Put your mask on, get your shit and go
You don't wanna die goin' outside catchin' a common cold
