Ringtone, I got you on my ringtone

I'm rollin' like a playboy, skeet skeet skeet  
Got another text from a sexy petite  
I met her last week in a vet on the street  
Just enough food for a player and a freak  
And she got a lot of ass, she put 'em on the glass  
Seen her at the concert, backstage pass  
I was just about to crash, she all about that cash  
I need to slow it down, 'cause I'm movin' too fast  
When the liquor's in the glass, pictures start to flash  
Party like a rockstar, all night flash  
Free at last, I was just about to smash  
When my iPhone rang and baby girl asked

Is that my song playing on the ringtone?

I'm straight, rollin' in an eight eight  
All through Detroit's where I roll bounce skate  
I make a killin', I'm a villain  
Got the feelin' that my dollars gon' bust through the ceilin'  
I'm dealin' against all the odds  
Y'all little boys can't flow this hard  
I go this hard, y'all know this hard  
I get cash money, not debit cards  
I'm next to blow, I'm at the check and go  
My flow's not bisexual  
Let's rock like the hi top Adidas top tens  
Tell a radio I need a couple hot spins  
And put it in rotation across the nation drop in  
And let me go plat without getting shot then  
Then it's time to go shoppin', but not for new clothes  
For new cars and new homes and bricks and bows

Ringtone, I got you on my ringtone  
(Yo, can you hear me now?)  
(Yo, wait a minute, can you hear me now?)  
(Yo, can you hear me now? Can you hear me now?)  
Got you on my ringtone  
Can I get with you tonight?  
I wanted you tonight (I'm there)  
I got you on my ringtone

I got a pocket full of money, so I can't go home  
Incoming call, that's my song on the ringtone  
Singular or AT&T  
Either way the conversation spit ain't free  
She's my little chocolate Blackberry  
MetroPCS text me  
The music mogul hoppin' out a four doors  
They snappin' photos with they mobiles  
You got no signal? Well that's a no go  
Don't got my dough yo well I'ma no show  
It's official, this the Sacrificial promo

And I download quick, never slow mo  
You got a Razr? I might page ya  
Strawberry kiwi, tell me what's your flavor  
I'm trying to know about your sexual behavior  
If not, call Captain Save a Hoe to save ya
