

Rubble

Esham

Rubble, you in trouble, on the double
Eat the plate, you gotta get it on the huddle
They don't like it, I might spike it when I hike it
I can see my foot in your ass like I'm a psychic
The ninja killer, neck snapper, killer trapper
I'm not from Toronto, but I'm runnin' like a raptor
The trash compactor, throw a rapper in the garbage
They was thinkin' I was squashin' it 'til I emptied the cartridge
Big stompin', earth quakin' when I'm rompin'
Leave a trail of rubble from Detroit to Compton
The bullets squirt, redrum the murder murder
Your girl saw that look in my eye, I want to hurt her
Don't make me laugh, don't make me mad
Grab you by your butt cheeks, rip you in half
That's just too bad, so sorry, not sad
You six feet under the earth, and I'm glad

Rubble, as your city crumbles
I know you can feel the rumble beneath your feet
Down, down, down, everything goes down (Breath fire)
Rubble, as your city crumbles
I know you can feel the rumble beneath your feet
Down, down, down, everything goes down

Breathe fire, everything sizzles
Flies and mosquitos, how we swat missiles
Polar ice caps just popsicles
Drown cities with just sweat trickles (Drip, drip)
Can't fuck with us, it's that simple (Bitch)
Pop planets like they're just pimples
Eat the whole warehouse if I want Faygo
I could just burp and cause a tornado
Ooh, and you can call NATO
Earthquakes and floods the moment we say so
Make roller skates with eight Winnebago's
What you call bread is just crumbs of Panko
Ooh, this world's in trouble
Can't even front, I love seeing it crumble
Pummeling buildings and watching 'em tumble
At the top of my shoulders, it's a three-head huddle

Rubble, as your city crumbles
I know you can feel the rumble beneath your feet
Down, down, down, everything goes down (Breath fire)
Rubble, as your city crumbles
I know you can feel the rumble beneath your feet
Down, down, down, everything goes down (Breath fire)

Rubble, the world mean nothing but a muddy wet bubble
Stomp right through your ocean puddle
Rubble, standing in the Hudson, waves to our knees
Dryhumping Lady Liberty
Down to rubble, fuck Mothra, Rodan, and Colossal
Energy beam for your asshole
Rubble, that's where you find your peeps deceased
Splattered in between the pieces
Of rubble, triple head butt for your structures

Built by fuckin' punks and nerds
Eat rubble, fuck a double, have three for your trouble
Doom is looming, peep the Hubble
Rubble, [?]
Our dick hairs are bigger than your redwood trees
In the rubble, that's where you find your history
'Cause it don't mean shit to me
It's all rubble

Rubble, as your city crumbles
I know you can feel the rumble beneath your feet
Down, down, down, everything goes down (Breath fire)
Rubble, as your city crumbles
I know you can feel the rumble beneath your feet
Down, down, down, everything goes down (Breath fire)

Rubble
Breath fire
Rubble
Breath fire
