Electric Callboy

Put your motherfucking hands in the sky

Her eyes so crystal clear  
Her taste like diamonds in my mouth  
This freezing touch of fear  
won't let me go until my heart stops

I can't remember last night  
Who's the person next to me?  
The drugs, the drinks, my love  
Baby, you make me feel free

I close my eyes, inhale the air  
Floating away, but I don't care  
I just wanna be with you darling  
I wanna feel free

I just, just wanna be with you  
I will do what you want me to

I just, just wanna be with you  
I will do what you want me to

I hear your voice  
that runs out of tune  
I'm floating in the haze  
of your perfume

I hear your voice  
that runs out of tune  
your crystals shine  
bright like the silver moon

Even life's always shit  
I know that I am not alone  
Everytime I kiss your lips  
you make me feel at home

I try to kill my despair  
flirt with the death, but I don't care  
I just wanna be with you darling  
I wanna feel free

I just, just wanna be with you  
I will do what you want me to

I just, just wanna be with you  
I will do what you want me to

I hear your voice  
that runs out of tune  
I'm floating in the haze  
of your perfume

I hear your voice  
that runs out of tune  
your crystals shine

bright like the silver moon

Put your fucking hands  
in the sky  
I gave my life away  
I gave my life away

I hear your voice  
that runs out of tune

I hear your voice  
that runs out of tune  
I'm floating in the haze  
of your perfume

I hear your voice  
that runs out of tune  
your crystals shine  
bright like the silver moon

I hear your voice  
that runs out of tune  
I'm floating in the haze  
of your perfume

I hear your voice  
that runs out of tune  
your crystals shine  
bright like the silver moon
