

Elevator Operator

Electric Callboy

You heard about a man
The lift controller
The lever king I told you
Hop in and let the journey begin
Shades, a shiny face
Like he's someone from outer space
So full of grace
I just wanna get in

Up and down
We're moving all around
We're going up and down
We're moving all around

I wanna show you my world
Where the beat goes up and down
Let me open the door
Elevator operator

Up! Up!
Down! Down!
Up! Up!
Elevator operator

I wanna be like him
I really wanna be like him
I wanna be with him
Forget about that
Heads up in the sky and we keep getting high
A magic down in his lever that you cannot deny

A glowing light
He's shining bright
I cannot wait to get inside
Still out of sight
And we wanna go
Up and down
We're moving all around
We're going up and down
We're moving all around

I wanna show you my world
Where the beat goes up and down
Let me open the door
Elevator operator

Up! Up!
Down! Down!
Up! Up!
Elevator operator

And I just wanna get down
But I'm just going up
You better listen to the sound
Move your body like a god
And we never stop
Get down

I wanna hear you say
Ta-ta-tatata-tatatata, get down
Ta-ta-tatata-tatatata, get down

I wanna show you my world
Where the beat goes up and down
Let me open the door
Elevator operator

Up! Up!
Down! Down!
Up! Up!
Elevator operator
