

# Hate/Love

Electric Callboy

I hate you so much  
Fuck you are the worst damn nightmare  
You're sick and close to die  
But shit I don't care  
You make me sick, your love is a lie  
I wanna hate so I keep you alive

I love the smell of your blood  
Dance dance baby go dance for me  
The beat is beating you up  
You are a part of my destiny  
But I can't let go

Gimme all your love  
All your tears  
All the hate you feel  
Gimme all your love  
Your pain, your thrill  
Gimme all your memories, melodies, remedies now

'Cause I wanna burn them  
Down Down  
Down Down  
I burn them  
Down Down  
'Cause I wanna burn it down

Back in the day you wanted me  
I got your heart so easily  
The sex we had so endlessly  
I make your mind a part of me  
Still makes me sick that your love is a lie  
I wanna hate so I keep you alive

I love the smell of your blood  
Dance dance baby go dance for me  
The beat is beating you up  
You are a part of my destiny  
But I can't let go

Gimme all your love  
All your tears  
All the hate you feel  
Gimme all your love  
Your pain, your thrill  
Gimme all your memories, melodies, remedies now

'Cause I wanna burn them  
Down Down  
Down Down  
I burn them  
Down Down  
'Cause I wanna burn it down

I make your heart stop  
Reanimate you 'cause I  
will make your heart stop

your fucking heart stop  
I make your heart stop  
Reanimate you 'cause I hate you  
I make your heart stop  
your fucking heart stop  
I make your heart stop  
your fucking heart stop

Gimme all your love  
All your tears  
All the hate you feel  
Gimme all your love  
your pain, your thrill  
Gimme all your memories, melodies, remedies now

'Cause I wanna burn them  
Down Down  
Down Down  
I burn them  
Down Down  
'Cause I wanna burn it down
