

# Love Me the Same

Esmée Denters

Sometimes the bluest sky will turn to grey  
Even the strongest heart can still break  
Right now there's nothing that we can't face  
While we're still young and unafraid  
But as the time goes on, seasons change  
So, will you be my cold breeze in the summer  
My blanket on a winter's day

Will you take me back to when we first met  
If I should ever forget  
Boy, keep me sane, when it feels like I'm losing my mind  
Will you light me up with a thousand sparks  
When I can't see us in the dark  
Oh, would you stay or would you leave me blind

Will you still think I'm beautiful when we're old and grey  
Can I stand under your umbrella on a rainy day  
When I'm in trouble or in danger, will you keep me safe  
If we ran out of money and we lost everything  
Would you love me the same

Could you love me the same? Oh yeah  
Could you, could you love me the same? Oh yeah

The sun is always shining above the clouds  
Just like the stillness deep in the ocean  
Underneath the waves we'll keep flowing  
It's that same love that never runs out  
Cause I know that you're here wherever I'm going  
I'll find peace in your arms when you hold me

Will you take me back to when we first met  
If I should ever forget  
Boy, keep me sane, when it feels like I'm losing my mind  
Will you light me up with a thousand sparks  
When I can't see us in the dark  
Oh, would you stay or would you leave me blind

Will you still think I'm beautiful when we're old and grey  
Can I stand under your umbrella on a rainy day  
When I'm in trouble or in danger will you keep me safe  
If we ran out of money and we lost everything  
Would you love me the same

Could you love me the same? Oh yeah  
Could you, could you love me the same? Oh yeah  
Could you love me the same? Oh yeah  
Could you, could you love me the same? Oh yeah

(Could you love me, love me, love me  
Could you love me, love me, love me  
Could you love me, love me, love me the same)  
Yeah...

(Could you love me, love me, love me  
Could you love me, love me, love me  
Could you love me, love me, love me the same)  
Oh yeah...

Could you love me the same? Oh yeah  
Could you, could you love me the same? Oh yeah  
Could you love me the same? Oh yeah  
Could you, could you love me the same? Oh yeah  
Could you love me the same? Oh yeah  
Could you, could you love me the same? Oh yeah
