

Mac-10 Flow

Espen Lind

Please, select a flow
Mac-10 flow activated
Beast flow activated
Welcome back

Super SWAH
Ladies and gentlemen,
This is the flow you been waiting for, click
And if I don't get it out right now
Then you'll probably waiting for years

Yeah, it's Super SWAH
Everybody yelling, where the hell have you been?
Again, we follow you on Twitter and Insta
But since the wake up we don't hear the music

Apologies, apologies,
Whatever "sorry" means
It's coming from the heart,
I mean it!
I've been through a lot of madness
I've seen it!

Face to face, vis-à-vis,
Whatever it is,
It's son, mutha papa!
Drop, I got the bass like a submachine
The Mac-10 and you're gone, mutha papa
Ah, now, ain't tryin' to start no violence
They've been raising hollow points
And I've been sitting here in silence

With that Ali-A aim and a A-10 flow
So advanced, like my brother fuse say
This is dangerous like a gun

Mac-10 flow
Mac-10 flow
Mac-10 flow
Drop ya weapons now
'Cause we said so [x2]

I don't know who told you Sway isn't one of the best in the UK
I shower down bullets, invest in a vest, or invest in an ark
No argument Linda, no Linda, no honey, you look in to me
Cause they don't wanna see me make the Mac-10 bark
I'll make them wish that they hid in a tree
Switch it to "twi", kwasikafuo
Wo nom ntumi nye mihwee
Back your talk, dabi a wanom kasa basa
Back and forth, been ripping this thing,
Go back and watch

And I'm still the captain here,
Play no game,
Nobody get hurt
Video killed the radio star,

But with no radio nobody get heard
Verbal murder anytime you hear the Mac-10 (brrr)
Russia to Serbia,
Nobody out here can mess with my (brrr)

Ah, it jammed
Wait a minute, I'll be back in two ticks
Just gotta slap in two clips
Don't usually happen to me
Hasn't ever happened to yerp?

What you know about rap music?
Been had that reach, yeah, man do this
Hand in the cloud I can slap two
Hand in the ground I can slap two
Stand in the crown I can snap two pics with the fans,
That's how I am
But most of these new kids don't really know who I am
Not Will.I.Am, no

Mac-10 flow
Mac-10 flow
Mac-10 flow
Drop ya weapons now
'Cause we said so [x2]

Okay! Gue-gue-guess who's back in the army
Whole crowd waving tsunami (They're waving!)
Smoking up the beats like a Marley
We blow it and the street gone barmy (Going barmy!)

Got a nice watch up on my wrist
Still don't give a toss what the time is
We bring it back like a Vine clip (again!)
We bring it back like a Vine clip

Can't stop me
I go insane
Break chains
You can't contain
C.O.D. when I hold that flame (loading, loading, loading)
See that Bane mask all on my face
Green light, cam on
Riding dirty so they can see me
Rolling, rolling, rolling with that 10

Mac-10 flow
Mac-10 flow
Mac-10 flow
Drop ya weapons now
'Cause we said so
