

# Change Us

Esperanza Spalding

[Verse 1]

Soon as it's quiet, then a storm  
Is already a' formin'  
Rumbling with your lover's doubt  
And then you cloud me out  
And the lightning flies

But then I see you on the corner  
Shining for Simone  
Or Sherilee and Baby Doll  
They're leashin' flat up all  
To fetch your mind  
Look, we can fight and stay on the same team in the same room  
But if you walk away  
That'll be your last play  
I already know when my grass is greener, don't you?

Why just complicate it  
You know I love ya, but I hate it  
When you start kicking dust

[Chorus]

Why must we fuss?  
Just when it's good, you wanna change us  
Why must we fuss?  
Just when it's good, you wanna change us  
Why must we fuss?  
Just when it's good, you wanna change us  
Why must we fuss?

Just when it's good?

[Verse 2]

Soon as you see a happy ending  
Up around the bend  
We break into your lover's swerve  
And end up on the curb  
With a stalling grind  
And then I hear that you were told  
Our engine's getting cold, to  
Malcolm, Ben and Johnathan  
Letting pedestrians  
Steer ya from behind

Look, there are breakdowns all along this road to love  
And some hitchhikers, too  
Looking to just ride along  
We can steer back on to the good road; hand-in-glove

Please don't complicate it  
You know I love you, but I hate it  
When you start kicking dust

[Chorus]

Why must we fuss?  
Just when it's good, you wanna change us  
Why must we fuss?

Just when it's good, you wanna change us  
Why must we fuss?  
Just when it's good, you wanna change us  
Why must we fuss?

Just when it's good?

[Bridge]  
Look in the mirror, darling  
Try to see clearer, darling  
Not getting younger, darling

[Outro]  
Why, must we fuss?  
Just when it's good, you wanna change us  
I don't wanna change us...
