

Good Lava

Esperanza Spalding

See this pretty girl?
Watch this pretty girl flow

Lone Ranger
I see you like the view
Wondering from a distance what my pretty peak can do
Come brave me

Don't march up
In your discerning shoes
I see right through the cool layered around your glowing fuse

So let loose
That mountain

Oh good times, good lava
We all know you wanna

Good lava

See this pretty girl flow
Wait 'til you feel it

See this pretty girl flow

If you believe it's good
See this pretty girl flow
Wait 'til you feel it

Good Lava

See this pretty girl flow
Watch this pretty girl flow
With this pretty girl

Good Lava

See this pretty girl flow
Watch this pretty girl flow
With this pretty girl

You stranger
One day are gonna be
Planting your own flag of conquered fear and fantasy
Right on me

Watch this pretty girl flow
Watch this pretty girl flow
Watch this pretty girl flow
Watch this pretty girl flow

With this pretty girl flow
Promise not to name me and I'll even let you climb
Inside
My mountain

Oh good times, good lava

We all know you wanna

See this pretty girl flow
Wait 'til you feel it
See this pretty girl flow
If you believe it's good
See this pretty girl flow
Wait 'til you feel it

Good lava

See this pretty girl flow
Wait 'til you feel it
See this pretty girl flow
If you believe it's good
See this pretty girl flow
Wait 'til you feel it

Good lava

See this pretty girl flow
Watch this pretty girl flow
With this pretty girl

Good lava

With this pretty girl flow
Good times, good lava
We all know you wanna
