

The Ways You Got The Love

Esperanza Spalding

You've got a certain way about you darlin'
Let me begin
Counting the ways
You've got the kind of love I need
You've got the kind of love I need

The years I waited for you seemed un-ending
Wasted and grey
You turned my sky colored again
And brought the kind of love I need

You've got the kind of love
What do you count on a long wakeful night?
You should count on me
Good for a drink or a dance or a fight
Breaking up can be as sweet

All that you need
Solace old friend
And amazing I found you then

You've got the kind of love
What do you count on a long wakeful night?
You should count on me
Good for a drink or a dance or a fight
Breaking up can be as sweet

You've got a certain way about you darlin'
Let me begin
Counting the ways
You've got the kind of love I need
You've got the kind of love I need
