

# All My Love

Essosa

I'm pullin' my way to get to where I want  
Take more than a day so I have to keep goin'  
Never flowin', but I know I'll find my place

I never was the one to pick or choose  
'Cause people know what's good for you  
Been talkin' to the big man up above  
Been through that, now I'm ready to give you

All my love (All my love, oh, oh-oh)  
All my love (All my love)

I'm packin' my bags (Packin' my bags down, nah)  
Wanna leave this town behind  
The jorney will drag (Yeah, it will be a drag)  
But I'll have to keep movin', never boomin'  
In the city where I found my name  
Oh Lord (Lord)

I never was the one to pick or choose  
'Cause people know what's good for you  
Been talkin' to the big man up above  
Been through that, now I'm ready to give you

All my love (All my love, oh, oh-oh)  
All my love (All my love)

Trying to fit in, but I'm still in doubt  
How did I get here? What is this about?  
It's telling me what's right, but it feels so wrong  
But it feels so wrong

I never was the one to pick or choose  
'Cause people know what's good for you  
Been talkin' to the big man up above  
Been through that, now I'm ready to give you

All my love (All my love)  
All my love (All my love)

Oh, oh  
All my love
