

Belong

Essosa

I tried hard to fit in the space
Everyone moves at their own pace
But you know, you know it's not easy to bear
When you see that the bond is already there

Your smile and laugh hide behind your wall
And no one notices there's something wrong
The days get shorter and the nights are long
Life feels different when you don't belong

So you say (So you say)
You wanna see me around your block
When you don't forget 'bout me, I won't be shocked
No, no, I'd rather stay lost

Runnin' 'round in circles
Tryin' to work out if this people thing is for me
I'm searchin' for acceptance
Yearnin', but can this ever be reality

Your smile and laugh hide behind your wall
And no one notices there's something wrong
The days get shorter and the nights are long
Life feels different when you don't belong
Your smile and laugh hide behind your wall
And no one notices there's something wrong
The days get shorter and the nights are long
Life feels different when you don't belong

Life feels different when you don't belong
