

# Heaven

Essosa

Close your eyes, don't it feel like Heaven?  
But ends just as I wake  
The golden stairs see the angels, does it?  
But is so give and take  
No more fears, no more intervision  
Your tears are dried away  
Take my heart, come and see the vision  
You wanna stay

Forever means eternity, forever  
And I don't wanna wake  
We can fly until the sun comes out  
My dear, our future awaits

I walking through the gates 'til the blinding life  
I've been waitin' for this moment my entire life  
It's only my ride  
Then I'll see my friends and my family too  
'Cause I know how much it means to you  
And [?] to persue

Forever means eternity (It means eternity), forever  
And I don't wanna wake (Don't wanna wake)  
We can fly until the sun comes out  
My dear, our future, our future awaits
