

# Memory

Essosa

You ask me where, where this thing is goin'  
I don't know, but I'm sure that [?]  
Burn it all  
Our memory will live on

Here we are again, feels like livin' in a dream  
That's never gonna end and it's as simple as it seems  
Only thing that we are set to know is the summer peace  
In the moment, the way your skin caresses mine  
I feel your warmth and it really gets me every time  
Side by side and I was so high on pride  
There's no comin' down, down, down

You ask me where, where this thing is going  
I don't know, but I'm sure that [?]  
Burn it all  
Our memory will live on

I wake covered up by the dust  
Built this house with the bricks of trust  
Don't care if they say we rushed, and now we're here  
There's just no turning back (Turning back) and that's a fact ( Ooh)  
We're running on this race like we on the track  
And I know it's complicated, all that love stuff seems so dated  
But I recommend my heart of [?], maybe this was fated  
Let's just focus on the now, than in [?] why and how  
We got all this time, so we should let it be

You ask me where, where this thing is going  
I don't know, but I'm sure that [?]  
Burn it all  
Our memory will live on

You ask me where, where this thing is going  
I don't know, but I'm sure that [?]  
Burn it all  
Our memory will live on, on
