

Too Far/Outro

Essosa

I've been walking through the feels
Tryna hold onto somethin' real
Everyone wanna heal
Come to terms of the how they feel
And I was gonna tell you, true
Because I always trusted you

At this point, I wanna let go of this pain (Let go of this pain
)
Follow the rainbow at the end of all this rain
But I know (I know) it's gonna be a long road (Long road)
Before we get to our destination

I, I wanna say "I love you" (Ooh)
But if this means, if this means at you (At you)
Then I'll just pray (I'll just pray) for brighter days (Brighter
days)
To come my way (Way)

Did I let this go too far?
I just wanted to be your star
But I had to discover myself
Had to answer my cryin' for help
Did I let this go too far?
I just wanted to be your star
But I had to discover myself
Didn't mean to put you through hell

No, no, no, no, no
