

## Too Late

Essosa

I'm too busy  
On the floor in a club with a drink in my hand  
What a pity  
Let me spell it out clear, make you understand

No this ain't about no man  
Truth is I got other plans

Remember when I was calling, now they on my line  
Don't do second chances, I don't waste my time  
Tryna [?] dances it won't change my mind  
Mind, and I don't got no time

It's a little too late for that  
Just a little bit late  
It's a little too late for that  
Just a little bit late  
It's a little too late for that  
No take backs, it's too late  
It's a little too late for that  
Just a little bit late

I'm too mellow  
Couldn't give no care, couldn't give a damn  
Stole cold devil  
Now I'm coming on up in my biggest step

If you didn't want me then, I don't want you now  
Taste of your medicine, baby drink it down  
Drink it down

Remember when I was calling, now they on my line  
Don't do second chances, I don't waste my time  
Tryna [?] dances it won't change my mind  
Mind, and I don't got no time

It's a little too late for that  
Just a little bit late  
It's a little too late for that  
Just a little bit late  
It's a little too late for that  
No take backs, it's too late  
It's a little too late for that  
Just a little bit late

Baby baby baby baby  
Shoulda known shoulda known shoulda known shoulda known  
Now I'm hot now I'm hot now I'm hot now I'm hot  
Now moon now moon now moon now moon

Baby  
Shoulda known  
Now I'm hot  
Now I'm over the moon

It's a little too late for that  
Just a little bit late

It's a little too late for that  
Just a little bit late  
It's a little too late for that  
No take backs, it's too late  
It's a little too late for that  
Just a little bit late

It's a little too late for that  
Just a little bit late  
It's a little too late for that  
Just a little bit late  
It's a little too late for that  
No take backs, it's too late  
It's a little too late for that  
Just a little bit late

Baby baby baby baby  
Shoulda known shoulda known shoulda known shoulda known  
Now I'm hot now I'm hot now I'm hot now I'm hot  
Now moon now moon now moon now moon  
Baby baby baby baby  
Shoulda known shoulda known shoulda known shoulda known  
It's a little too late for that  
Just a little bit late
