

# Waste My Time

Essosa

I knew you were gonna hit up my line  
It was only just a matter of time  
Was it a case of out of sight, out of mind?  
'Cause something 'bout you just ain't right  
You told me that you were gon' see me later  
Maybe you were tryna keep me sweet  
Had me clutching on my pillow  
And checking out the window  
But what you want with me?

Where did you come from, baby?  
And why'd you keep bringin' me down?  
'Cause if you don't want me, baby  
Then why'd you keep me around?  
Boy, I don't want no drama  
I got to move on in life  
I won't let you cause me trauma  
You just want to waste my time

Haven't seen you in a minute  
You probably wanna wrap me in it  
Got me in deep, I just wanna hold you  
Tell you all my feelings  
Been cleanin' my room for hours  
You better come through with flowers  
Your love is bliss, but I know

If you don't really care about it  
And this ain't what you wanted  
Then I gotta throw in the towel  
But don't you treat me like a child  
And tell me all these lies  
I'm begging you, don't be cruel  
Just say that we're through

Where did you come from, baby? (Come from, babe)  
And why'd you keep bringin' me down?  
'Cause if you don't want me, baby  
Then why'd you keep me around?  
Boy, I don't want no drama  
I got to move on in life  
I won't let you cause me trauma  
You just want to waste my time  
Where did you come from, baby?  
And why'd you keep bringin' me down?  
'Cause if you don't want me, baby  
Then why'd you keep me around?  
Boy, I don't want no drama  
I got to move on in life  
I won't let you cause me trauma  
You just want to waste my time
