

DON'T FORGET

EST Gee

Pipe that shit up, TNT
Forever rollin'

I don't fit in with these niggas, did the best I could
And they ain't grow up how I grow up, I came from the hood
I had to stand up with a steppa to get it understood
And he, yes, he the new Devron, I'm on my gangsta shug'
Won't catch me langin' with no rappers
They don't fuck wit' Dugg
It ain't that serious, it's the presidial, I came from the mud
I make some gold songs, some platinum, it still fuck with drugs
I don't do no exaggerating or cappin' shit, it's it was
I'm actually known for overreacting
Let's jump straight to guns
And then play dumb, don't know what happen, get in front the judge
I learned the truth whenever my package touch shaking the bus
Kow Lil' taught me how to drive crack bitch taught me one-on-ones
I taught myself how to double back
Make sure you get it done
Then show the same shit I learned to all my lil' bruhs
It's either pick me out the bunch, I'm the realest one
I was on my way to get that Lamb' when I heard the feds come
I had to pull off in the parking, made my legs numb
Can't show no sorry for no ratty, you niggas, your mans won
I pray for lil' bro don't get the MACs, he ain't even twenty-one
I got they daughters and they sons till they sin is done

We made a pact in blood
I hope ya'll don't forget
Might come back, bite you in your ass
What you say to a bitch
Might come back, bite you in your ass
What you post in them pics
Might come back, bitch you in your ass
Keep putting your phone on click
You in the streets, I'm on the fence
Nigga, you gotta pick
You gotta take whatever come with it
You out here takin' risk
You gotta take whatever come with it
You out here takin' risk
You gotta take whatever cone with, you
Can't take off a switch
You gotta take whatever come with it
You on that diamond list

And shorty sixteen before I made her sixteen
I had sixteen going for like sixteen
Was no such thing as exotic weed, it was Sour D
Would your mama see what I be carrying, would know she proud of me?
I never thought I'd see the day that I fall out with Lee
You 'posed to put him on the floor, I thought you love me
I see where the trust leave, fuck you if it's fuck me
But still don't want nobody hurt you, do that me weak?
Then I come through every time perfect, all your time of need
Maybe your karma'd call that a courtesy, would it help me see?
And I took it personally, what work for you don't work for me

Gave niggas work for free when I was barely worth a G

We made a pact in blood
I hope ya'll don't forget
Might come back, bite you in your ass
What you say to a bitch
Might come back, bite you in your ass
What you post in them pics
Might come back, bitch you in your ass
Keep putting your phone on click
You in the streets, I'm on the fence
Nigga, you gotta pick

You out here takin' risk
You gotta take whatever come with it
You out here takin' risk
You gotta take whatever come with, you
Can't take off a switch
