

## Double Back

EST Gee

Yeah she love me like I love her back but she don't get attached  
She know after a certain time at night I might not text her back  
Have me chasing running laps  
I can't wait to double back and she love me like I love her back  
But she don't get attached  
She might fuck me and get up like what we doing after that  
Got me chasing running laps I can't wait to double back

I can't wait to run that back  
She can't wait to throw that neck  
I can't wait until you tell me I'm the best and have you stressed  
I can't wait to take you shopping  
Get you popping have you fat  
Put some diamonds on yo neck  
A 36 yo starter kit
