

Forever

EST Gee

My phone kept blowing up, first I was hittin' ignore
I answered, this nigga asked me was I hittin' his whore
I told him "I wouldn't have to if you did some' for her"
Meanwhile she in the backseat with her head to the floor
I be tryin' to shake her but she keep askin' for more
She be grown, smellin' good and covered in oil
We play about everything so I don't know what we doin'
But every time they get into it know her mouth gon' be stupid
When we fuck she be into it 'cause I know what I'm doin'
We can't get under the covers 'cause the sheets'd be ruined
We 'bout a hour into and my stroke is still fluent
I'ma be here 'til the new year, I done took me a blue one
She hit the gym a few, this time it feel like a new one
She threw it back and I blew it, got me limp as a noodle

(Give me my motherfuckin' phone)
I'ma fuck on her forever
(Always tryna go through my shit)
Y'all should stay together
(I'm tired of going through this same weak as motherfuckin' shit, like you already know what it is)
Just know I'm comin'
(So either you gon' get with it or we gon' keep it movin')
Y'all should stay together
One day y'all get married
(Matter fact, here, I'ma call this nigga right now)
Know I'ma be there in a hour
I'ma be there in a hour
(Gee where you at? I need you to come get me, this nigga trippin')
I'ma be there in a hour
(Like now)

Same time, different bitch, different situation
Pillow talkin' nigga on the unders slick hatin'
What's crazy is he really think she pregnant with his baby
She love him but he basic so she told me not to say shit
I told her she was crazy, ask her what she doin' later
Probably at her mama, pick her up and let her taste it
She a chocolate hood bitch, look good with her braces
She can take a good pic with the filter it's gon' shape it
I showed her how to take it, I been fuckin' her for ages
It's pictures of her naked, she don't want me to erase 'em
In her purse she got a taser, never let a nigga play her
She gon' always keep a player, and always let me slay her

I'ma fuck on her forever
Y'all should stay together
One day y'all get married
Be there in a hour
I'ma fuck on her forever
Y'all should stay together
One day y'all get married
Be there in a hour

Don't worry babe I'm gon' be there in an hour

Big Gee
