

# Have Mercy

EST Gee

EST Gee

I had to tell her watch her mouth, she say it's demons on me  
Nah that's my people who died before me not tryna leave me lonely  
This goes to show you don't know sumn don't be speaking on it  
Make sure that poppa' check my posture, my yeek should be showing  
Jack of all trades but now a days I work on shooting emotionally  
You heard the story about the dada out of bloody ocean  
We bending corners serving bodas we bought back the culture  
Red said we lacking leadership and made me take it over  
For sure the last man standing always get to tell the story  
Before we made it to our glory the streets told it for me  
A chief can never fully lead if he ain't been no soldier  
Rico you told me they was fake and not to let em closer  
My heart was broken when they told me I was getting work from Nola  
I felt the tention kept my distance analyzed they motion  
Supposed to be family how we couldn't get no understanding  
They took yo pack then came through clapping right in front in Miami  
You had me thinking I'm the reason made me get back active  
You tried to crash me knowin' I loved you like you was my daddy  
I had a pure heart and you grabbed it and took it for granted  
I ain't feel sadness when they smashed you cause you heart me badly  
Live in perspective, love is evil when you see it backwards  
We got a code we can't go against whatever happen  
Won't do no rattin' even tho the opps been told what happened  
He went to jail tough as hell but in there fucking asses  
Then snaked his closest friend cause all that shit was seen on camera  
And he was supposed to be our savior super gangsta status  
Speak on me lightly they nun like me they spinning I'm trappin'  
Misleading the masses like you cold and we respect yo caddy  
I'm really that niggas ain't half of me ain't even a fracture  
Won't let it happen beat the streets can't see me moving backwards  
I stood on business for my niggas got put in them caskets  
They used to say that I was triple rich and stood on mission  
But if I didn't who's to say we'd be in this position  
I did it outta love for ya'll so I know God forgive me  
You know the feeling when they lying swearing to God you guilty  
Kada ain't even fit the description from the eye of witness  
He fighting a lethal injection God have mercy for my lil ones  
I told him when he beat the case he gone get out the biggest  
I making sure all my members get out prison richer  
If I say I love you I go to heaven I'll see heaven with you  
Long live the made man and RIP Lil Dead I miss you  
Long live the made man and RIP Lil Dead I miss you

Free all the made men niggas know what it is still the same thing  
Yeah yeah yeah

They tryna pull me back I'm gone

I'll beat ya'll it was a blowout they wasn't close they don't wanna see it again

Know ya'll don't wanna see me again
