

FOREVERROLLING

Wicked as ever, easy to do if you special
Ain't cracking my dope through the pressure
Killer, a dealer, finesser
And managed to fit making raps in my schedule
I know the other side say I'm a devil, but fuck it
It's fuck'em, enough for forever
I 'member I tried to vent to a reverend
He told me I'm psycho and couldn't have had helped me
I just like beef a lil' better, wan' drop her more lettuce
Make sure that it's healthy, entice her a lil' better
If you my nigga and hear disrespect, you should check it
Anything else to me extra
Back and forth gossipin' means you too messy
Do you regret wanting pressure?
Is it a loss or a lesson when I send a blitz to your section?
Know I'm impressive, obsessive, I study from one or two before I stretched h
im
Niggas be wrecking till I come through wreck 'em
Especially, I know his moves like a wrestler
Niggas in black and white, pussy, Sylvester
But I guess rats and the cat go together
Send a shot straight to his head, Excedrin
Prob'ly forget but I'll never forgive him for piping
Put lead in him like a pencil

I like stepping, I like repping, I like hopping out cars with my weapon
I like blessing, I like helping, I like to make sure this shit get to heaven
I like testing, I like pressure, I like to make sure he shut up forever
I like to make sure he shut up forever, I like to make sure he shut up forev

So you [?] parked on front street
Why niggas ain't make a punch all week
It be loud when I'm gone
When I'm home not one peep
Since when big dogs let pups eat
I remember serving fent when it wasn't cheap
Let a trick turn splits in a whole binks
Buy it soft make it come back concrete
You was always a rapper but you won't street
So you know they strategically duck me
Never killed nothin' but they make tough [?]
Tell 'em how you got glued to your front seat
It be hard to hide in a OT
Niggas do everything but bust yeets
Startin' to think they may work with the police
And they plans died long as we got beef
Until they died from thinkin' shit sweet
Riata come thru niggas play sleep
Say it's safe to come out like next week

Just make sure it's a lo when you text me
You know I'm unexpectedly am deaths, B
I done earned my stripes like a referee
Niggas runners, they brothers, they Jefferies
You know I'm known for turning shit to veggies
Make sure you mention the king, respectfully

I like stepping, I like repping, I like hopping out cars with my weapon
I like blessing, I like helping, I like to make sure this shit get to heaven
