

Road Trip

EST Gee

(FOREVEROLLING)

Stay focused, stay focused
Shit ain't gon' stop
Big Gee, nigga

Get the package, send the address
Vacuum wrap it, send the money, check the tracking
Triple trappin', gas in action
We gon' need at least about a thousand baggies
Percs are handy, makin' candy
Police pass me, ridin' with a thousand Xannys
I'm in traffic workin' magic
If they catch me, call my lawyer, make it vanish

Have you risked it all on a road trip?
I'ma triple seal it so it's no scent
If they pull me over, they won't notice
Adderall help me stay focused

Before niggas was hip, I was shippin' zips
Risky as it get, but I can get it sent
I can't take advice or tips
I done risked my life for six hundred, that ain't even no money
Dead broke 'til I started pluggin'
Now everybody love me
Quit callin' my phone, it's comin', nigga
Got the location, I'll make them killers come and get 'em
Careful with that funny business
Losses taught me fundamentals
Percs turn me to somethin' vicious
This shit must got somethin' in it
Don't think twice, I dump my victim
We ain't tryna punch a nigga
Hustlers and some punchers with me
Something else, I'm something different
Boss because I run my business
I'ma eat her up, then kiss her
Make her think she love a nigga
Her house where we do the shipping
I'ma take what's comin' with it

Get the package, send the address
Vacuum wrap it, send the money, check the tracking
Triple trappin', gas in action
We gon' need at least about a thousand baggies
Percs are handy, makin' candy
Police pass me, ridin' with a thousand Xannys
I'm in traffic workin' magic

Have you risked it all on a road trip?
I'ma triple seal it so it's no scent
If they pull me over, they won't notice
Adderall help me stay focused

It's a science to this shit
You can't buy it, it's a gift

I was cryin' to the sky and beggin' God to make me rich
I done died, came back again
I went viral off of zips
You too scared to ride with ten
I'm tryna help me and my mans
Minus me, who would you be?
I gave you chances to eat
I done whooped niggas for stealing grams
Don't care if I got P's
The worst is part is Tennessee
All the polices I seen
You can't see no ho in me
Why you think they call me Gee?
I seen money grow on trees
So I'm rakin' up the leaves
I can't even go to sleep
I'm too busy tryna scheme
But it feel like it's a dream
And the devil keep tellin' me felonies better me
I'm never settling, money my medicine
You know I'm sellin' it, you can't discredit it

Get the package, send the address
Vacuum wrap it, send the money, check the tracking
Triple trappin', gas in action
We gon' need at least about a thousand baggies
Percs are handy, makin' candy
Police pass me, ridin' with a thousand Xannys
