

# Shine Together

EST Gee

Yeah, yeah, yeah, yeah  
Yeah, yeah

Them niggas shouldn't never said nothing in the first place  
My lil' nigga's turned up, tryna murk something on his birthday (Tay Keith,  
fuck these niggas up)  
I killed him on my worst day  
I heard they know we stepping, get sent to the devil  
Come down, pop a level, you can't claim my section if you really telling  
Today, I'm feeling petty, drop attention for a peasant  
I tote it like it's legal, niggas know that I'm a felon  
He walked at around seven, didn't even notice this a set-up  
And got wet up, got the press on, I can't let up  
You seen us and sped up  
I know the opps fed up, they just jealous that my bread up  
And they friends keep gettin' hit up  
I linked up the killers, 30 slidin' with Lil Zoski and Spitta  
Louisville Metro on me, finished, I influenced my city  
Hundred thousand could've clipped me, it's too late to come get me  
Now I'm up a milli' and the biggest villain in my city

Where the killers go when their eyes closed?  
Niggas tried to swarm up, then bust him with a blindfold  
How they say they trappin'? Ain't sold nine 'bows  
Drive slow, hit the corner, hop out, get your mind blown  
Gifted in that kitchen, shine special  
Broke it down and put it back together  
Newburg ain't have gas when I left it  
Now everybody know we shine together

Now everybody want that pressure, they know I'ma give it  
Really shinin', spinnin', really worth a ticket, I ain't picky  
Anybody get it, we don't leave a witness, you can ask 'em  
Niggas beef with us and turn to captions  
Or opt out and go online actin' like they actin'  
Streets different, it ain't 'bout who really out here crashin'  
It's 'bout who grab their phone and go post it up the fastest  
Niggas 'posed to been trappin' before me, how I pass 'em?  
Facts, niggas been rappin' before me, how I pass 'em?  
He knew it was gas before I busted it out the plastic  
A trapper, made a hundred thousand on the campus  
And put a bunch of niggas in the casket, bodies gettin' tragic

Where the killers go when their eyes closed?  
Niggas tried to swarm up, then bust him with a blindfold  
How they say they trappin'? Ain't sold nine 'bows  
Drive slow, hit the corner, hop out, get your mind blown  
Gifted in that kitchen, shine special  
Broke it down and put it back together  
Newburg ain't have gas when I left it  
Now everybody know we shine together
