EST Gee

(FOREVEROLLING)

Ridin' 'round the city with the top off (With the top off)  
What it cost to get a fuck nigga knocked off? (What it cost to get these fuck niggas knocked off?)  
My lil niggas hittin' shit like Top Golf (My lil' niggas hittin shit like)  
Not no flunky in the way, we want the top off  
What an opp cost? Need him knocked off (Need him knocked off)  
Clock a nigga out like he just got off (Gon' clock a nigga out like he just)  
We see your nose drippin', wipe the snot off (Wipe the snot off)  
Niggas better use they head 'fore it gets shot off (Better use they head 'fore it get)

I got niggas in they feelings and it's really over rap  
You can make a thousand disses, ain't gon' bring yo' nigga back  
I done served a thousand niggas and the streets can vouch for that  
I been stalkin' all your pictures on your Insta and your Snap  
Do your homework when you slide, tryna find out where he at  
No outsiders on the island, I promise to get him whacked  
We don't know him, he get taxed  
In the kitchen gettin' it wrapped  
Mind yo' business, my lil killas will come get him for a stack  
I'm in traffic with my nigga, drive that rental like a cat  
Tell him shoot it 'til he cramp, hit medullas through the cap  
I been provin' that it's facts, better do it if I lack  
Told him shoot it 'til he cramp and then switch hands and double back

I got post-traumatic stress, all the niggas I finessed  
All the opps I'm getting stretched, I'm not someone God should bless  
I ain't shit according to a bitch, a street nigga at best  
I don't shake when I take threats, I get extorted I get pressed  
Grab a unit, grab my tool and then redo it through the press  
Feel like I'm still fighting karma from the problems I finessed  
Niggas can't afford to line me, once they tried me and they missed  
We been hooking shit to ivy since they tried to get me killed  
So I'm upset, five grand on my head is disrespect  
It's niggas out front action to this five thousand in debt  
So you talkin' 'bout a pound or two to send me to my death  
Shot so many rounds at dude that he can't move below his neck
