

# Alien

E^ST

I'm on the bus and it feels like a U.F.O  
Everybody's talking a language I don't know  
I wonder if we're going to the same place  
Or am I heading to my own space  
So next stop I get off and I gotta find home

I'm at the club and I feel like I'm on Mars  
I'm tryna dance but it's like I got sixteen arms  
Wondering do we hear the same song  
Or did I hit the beat wrong  
Or did I come to this Earth on a shooting star

I don't know how they do it  
Walkin' around like humans  
I just can't understand it  
Is anyone from my planet  
I'm feeling like a stranger  
Wakin' up in a ten-foot crater

The way the world is spinning got me feeling like an alien  
The way the world is spinning got me feeling like an alien  
(The way the world is spinning got me feeling like an alien)

I'm on the pavement stepping over the cracks  
What if I fall through and never come back  
I wonder if there's other beings like me  
Do you see the things that I see?  
If you do, let me know where you're at, let me know where you're at

I don't know how they do it  
Walkin' around like humans  
I just can't understand it  
Is anyone from my planet  
I'm feeling like a stranger  
Wakin' up in a ten-foot crater

The way the world is spinning got me feeling like an alien  
The way the world is spinning got me feeling like an alien  
(The way the world is spinning got me feeling like an alien)
