

# Get Through

EAST

I'm a mess  
I'm crying to my friends 'cause I got hurt again  
Not my best  
Yeah I'm not eating right, struggling to sleep at night

But it's like whatever  
It won't be forever  
And I know that I can do better  
Watch me get my act together

I don't know how I'll do it  
But I'm gonna get through like there's nothing to it  
And one of these days I will forget you  
Got things to do  
I'm gonna get through, get through  
I'll get through, get through  
I'll get through, get through  
And one of these days I will forget you

Well I guess  
I didn't have my back, now I won't forget that  
I thought you were different  
Didn't make a difference  
Didn't make a difference

But it's like whatever  
It won't be forever  
And I know that I can do better  
Watch me get my act together

I don't know how I'll do it  
But I'm gonna get through like there's nothing to it  
And one of these days I will forget you  
Got things to do  
I'm gonna get through, get through  
I'll get through, get through  
I'll get through, get through

And one of these days I will forget you  
And one of these days I will forget you  
And one of these days I will forget you  
And one of these days I will forget you  
And one of these days I will forget you  
And one of these days I will forget you  
And one of these days I will forget you  
And one of these days I will forget you  
And one of these days I will forget you  
And one of these days I will forget you
