

I'm Doing It

E^ST

We were one and the same
Linked golden chains
And when you broke off
I felt like a fuck up
We were ride or die
Till you changed your ride
And when you rode off
You left me so lost

'Cause I'd always think about you
I'd always think about us
I never thought about
But now I'm all about me
Even though you will doubt me

I'm doing fine without you in my life
I'm doing great without seeing your face
I'm doing well just in case you couldn't tell
So you can't say shit
'Cause I'm doing, doing, doing it
I-I'm, I-I'm, I-I'm doing it

We were side by side
Now I'm flying wide
I know that you don't believe me
You're thinking, "She'll always need me"

'Cause I'd always think about you
I'd always think about us
I never thought about
But now I'm all about me
Even though you will doubt me

I'm doing fine without you in my life
I'm doing great without seeing your face
I'm doing well just in case you couldn't tell
So you can't say shit
'Cause I'm doing, doing, doing it
I-I'm, I-I'm, I-I'm doing it

I-I'm, I-I'm, I-I'm doing it
