

Until Then

E^ST

So nice to have someone to care for
So nice to have someone you can't let go
But I guess I'll have to wait
How nice to be someone relied on
How nice for someone to hold your heart
But I guess I'll have to wait

Cause I don't know what I've never had
But I'm sure that it can't be bad
Later on if I find you, I'll know

Won't be hard to be happy till then
I'll just have to make time a friend
Won't be hard to be happy till then
I'll just have to make time a friend

I've tried to be someone who listens
And I'll try to be someone who thinks out loud
But I guess I'll have to wait

Cause I don't know what I've never had
But I'm sure that it can't be bad
Later on if I find you, I'll know
I'll know

Won't be hard to be happy till then
I'll just have to make time a friend
Won't be hard to be happy till then
I'll just have to make time a friend

Life is life and mine is mine
And I will live until you're mine
I will live until you're mine
Until you're mine
Life is life and mine is mine
I will live until you're mine
I will live until you're mine
Until you're mine

Until then
I'll just have to make time a friend
Won't be hard to be happy till then
I'll just have to make time a friend
