

Your Ghost

E^ST

Strength comes and strength goes
Like most things
And weakness you can't show
Like most things
It's music to your ears
The silence
And I can't see you disappear
In your eyes
And I need to know where did you go

'Cause all you left was your ghost
And all of our memories
And all of our memories
Yeah, all you left was your ghost
Here to haunt me
Here to haunt me

It's time you took control
Of this feeling
It's better to just let go
Of this feeling
But I need to know where did it go

'Cause all you left was your ghost
And all of our memories
And all of our memories
Yeah, all you left was your ghost
Here to haunt me
Here to haunt me

'Cause all you left was your ghost
And all of our memories
And all of our memories
Yeah, all you left was your ghost
Here to haunt me
Here to haunt me
