

Freeway

Estelle

Synergy on heavenly
Loving you like 1 4 3
Take me from dark blue to green
It's better when you're here with me cause

Oooo you know your heart's
Not meant to be alone
Don't you know that in the dark
I'd ride along to

I'd catch a freeway to a freeway
Pulling up on you
Freeway to a freeway
Taking me to you
Freeway to a freeway
Ride along with you
Oh yeah I'm riding out with you
Oh yeah I'm riding out with you...

Keep me in my piece of mind
So you don't take me for a ride no
That's the part I like from you
Separates my green from blue
Let's me know that this the truth

Oooo you know your heart's
Not meant to be alone
Don't you know that in the dark
I'd ride along to

I'd catch a freeway to a freeway
Pulling up on you
Freeway to a freeway
Taking me to you
Freeway to a freeway
Ride along with you
Oh yeah I'm riding out with you
Said I'm riding out with you...

Don't you know that oooo
And your energy so true
Loving all on you
And your energy so true
Loving all on you
Love is all on you
Love is good with you
Riding out with you
Love is good with you
Love is all on you
Love is all on you
Love is good with you
Riding out with you
