

Let It Drop

Estelle

We woke up this morning (Yeah)
We're hydrated, we smoked (Okay)
I'm like, you know
I really don't need that kind of negativity in my life (My life, my life)
Not today

Is this the end of a feeling?
Wrap it up
Wrap it on up
Let it drop
It's gotta stop
It's the end of a feeling
Wrap it on up
Let it rock
Rock it
Let it drop
It's gotta stop

Sometimes silence is just silence
Got to let it lie where nobody's invited
You scroll all the way down in my story
Fix your mouth to bore me
No one wants this glory, yeah

I was in love
Was
Was in love with you forever
And then, oh, I was a villain
Found a love that felt much better
It's better

Yeah, that, that is not what I need in my life, okay?
That is not entertaining
So sip it up, sip it up
Baby, let's talk about how worryin' about somebody else, okay
Is gonna not do wonders for my speed
We can't have that

The end of a feeling

Sometimes silence is just silence
Got to let it lie where nobody's invited
You scroll all the way down in my story
Fix your mouth to bore me
No one wants this glory

I was in love
Was
Was in love with you forever
And then, oh, I was a villain
Found a love that felt much better
It's better, yeah

I was in love
Was
Was in love with you forever
And then, oh, I was a villain

Found a love that felt much better
Much better, yeah

I was in love
Was in love with you forever
And then, oh, I was a villain
Found a love that felt much better
It's better, yeah

Never, ever
Yeah, ever
In the history of ever would we be doin' this

Is this the end of a feeling?
Let it ride (Yeah)
Let it drop (Let it drop)
Just gotta stop (What?)

It's been cute, it's been nice
Gotta stop
We're no longer delusional
Gotta stop (Oh, oh)
It doesn't even look good on me, babe, it flushes me out
Gotta stop

I really don't need that kinda negativity in my life
Yeah
We don't, no, we don't (Yeah)
We're not telling that story anymore (Yeah)
Hmm, oh, I'm bored
You're boring me
Yes, how 'bout that?
How about that?
You thinkin' I have the time
Just because I'm wearing a Rolex
And the watch broke (Hahaha)
Get yo' ass out of here
Baby, we said the end, okay?
That's all, folks
