

Not Sure

Estelle

One time for the DJ
Let the haters keep it down by the replay
We don't care about the he say she say
But whatever I say fly like a heatwave
Hotter than a sauna in the club and the drinks come plenty
Shoutout to my girls that had one too many
One good time is the only thing steady
Tell me when you wanna go I'm ready

Don't know what's come over me
Music takes control of me
Different type of energy for us
We could shine like flashing lights
All we'd need is you and I
Can you match my appetite for love
I'm ready

But I'm not sure, what I'm doing
I got my hands all over you
I'm not sure love, is it moving?
But I'mma dance all over you
No I'm not sure, should I do it?
Should I take my chance with you?
'Cuz I'm not sure, what I'm doing
I got my hands all over you

(One time for the DJ) [x2]
Hands all over you, cuz I'm not sure, what I'm doing
(One time for the DJ) [x2]
I got my hands all over you

I'm right where I wanna be
With a workout all in front of me
You're all I need 'cuz what I see I like
Hold me like like it's us alone
Touch me anyway you want
Wondering I should take you home
I'm ready

But I'm not sure, what I'm doing
I got my hands all over you
I'm not sure love, is it moving?
But I'mma dance all over you
No I'm not sure, should I do it?
Should I take my chance with you?
'Cuz I'm not sure, what I'm doing
I got my hands all over you

(One time for the DJ) [x2]
Hands all over you, cuz I'm not sure, what I'm doing
(One time for the DJ) [x2]
I got my hands all over you
