

# So Different

Estelle

You left my life in a mess  
Of this pain and as I ask for consumpt  
I make him sound so good  
It's so good that you just gotta sing along

And I just don't know if I'm making a difference  
Always making me different  
But I feel so strong and as time goes on  
I guess it's making me different

And the pain that was here  
Now it's gone yeah  
So here comes a change  
I've been searching for yeah

And I owe it all to you ooh ooh yeah  
You ooh ooh yeah, you ooh ooh yeah  
Said I owe it all to you ooh ooh yeah  
You ooh ooh yeah, you ooh ooh yeah

The more that I sing away  
The more I take  
That control of where I was  
I pick myself up and say  
I can't wait to become someone to love yeah

Coz I came so long and I love so much  
That I love our love was magnificent  
Now I just don't care if I'm making a difference  
Coz I'm making me different

Coz the pain that was here  
Now it's gone yeah  
So here comes a change  
I've been searching for yeah

And I owe it all to you ooh ooh yeah  
You ooh ooh yeah, you ooh ooh yeah  
Said I owe it all to you ooh ooh yeah  
You ooh ooh yeah, you ooh ooh yeah

Said I owe it  
Said I owe it  
La la la la  
So different, so different  
La la la la  
So different, so different  
La la la la  
So different, so different

And the pain that was here  
Now it's gone  
So here comes a change  
I've been searching for yeah

And I owe it all to you ooh ooh yeah  
You ooh ooh yeah, you ooh ooh yeah

Said I owe it all to you ooh ooh yeah  
You ooh ooh yeah, you ooh ooh yeah

Said I owe it  
Said I owe it  
Said I owe it

So different  
So different
